## Salem (Oxford Substation) Energy Storage Building Site

The site plan shows a rectangular plot bounded by Oxford Street to the north and 22nd Street to the east. The plot dimensions are 102'-0" wide and 103'-6" deep. The layout includes:

- Building Footprint:** A large rectangular building with a total width of 102'-0" and a depth of 103'-6". The building is divided into several rooms:
  - Battery Room:** Located on the left side of the building, containing multiple battery units (BMS, BATT).
  - Viewing Room:** Located on the right side of the building, containing viewing equipment.
  - Inverter / Switchgear Room:** Located in the center of the building, containing inverter and switchgear units.
- Parking:** A paved parking area is located to the north of the building, adjacent to Oxford Street. It includes a 6'-0" wide access point.
- Loading Area:** A paved loading area is located to the west of the building, containing a Temporary Site Trailer.
- Access and Egress:** The building has multiple access points, including a main entrance on the south side and a side entrance on the west side.
- Landscaping:** The site includes several trees and shrubs, particularly along the west and south boundaries.
